🔧 PROJECTS

My Portfolio

Portfolio Website - Personal Project

01/2026 – 02/2026 | Berlin

- A simple React app to display my portfolio and showcase my skills
- Built with React & Vite using animations for smooth page transitions from Motion for React
- Worked with a designer in a real-world-designer-developer workflow
- Used pure CSS instead of framework based responsiveness in order to achieve a deeper understanding of CSS Grid & media queries

FoodieFeed

Fullstack Web Application - Le Wagon Project

- Fullstack Web Application for sharing & storing recipes
- Implemented user authentication using Devise, search & storage functionality
- Frontend: HTML, CSS, StimulusJS
- Backend: Ruby & PostgreSQL for database
- Lead a team of two & collaborated using Agile methodology, Git & GitHub
- Fully designed in FIGMA

PestControlPets

AirBnb Clone Project - Le Wagon Project

- Brief: Come up with a fun spin on a rental services site such as AirBnB
- Fullstack Web Application for booking animals to get rid of pests
- Implemented User Authentication using Devise & a search function
- Frontend: HTML, CSS, StimulusJS
- Backend: Ruby & PostgreSQL
- Lead a team of two & collaborated using Agile methodology, Git & GitHub
- Framework: Ruby On Rails

🎓 EDUCATION
